

# ELVIS Onobhayedo

## Software Developer

[elvisonob@yahoo.com](mailto:elvisonob@yahoo.com) | [Github](#) | [Linkedin](#) | 07778833743 | Aberdeen, Scotland |  
Willing to relocate

A passionate and enthusiastic Software developer with a background in Electrical and Electronics Engineering offering an understanding in Front and Back-end development, with technical skills in JavaScript, React, Redux, NodeJS.

### RELEVANT EXPERIENCE

#### *Boolean UK - Full-Stack Coding Academy*

2021 — 2022

A full-time 6-month coding bootcamp, focusing on full-stack development. I successfully implemented turning user requirements into quality software. This included a team development project, working with the rest of my team, on an existing codebase. This lets us practice Kanban, and agile, with stand-ups, and retros as well as best practices around branching, CI/CD, merging conflicts, and pull requests.

### PROJECTS

#### *Video Search App*

[Github](#) [Hosted](#)

This is a front-end application of a Video search App, which I built to demonstrate that I can design a User Interface webpage which fetches and displays information from an external API based on the input from the user

Technology used: HTML, CSS, JavaScript, React

#### *Feedback Collection Application*

[Github](#) [Hosted](#)

This is a full stack application, which demonstrates that I understand the concept of authentication in web development, concept of CRUD and usage of Databases. A user is authenticated through Google Oauth to gain access to send a survey to client's email, which is routed from the client side of the application to the server side.

Technology used: React, Redux, NodeJS, ExpressJS, PassportJS, MongoDB, Stripe

### EDUCATION HISTORY

#### *Robert Gordon University, Aberdeen UK*

2020 — 2021

MSc, Oil and Gas Engineering

#### *University of Benin, Benin-City*

2016 - 2018

MSc, Electrical and Telecommunications Engineering

#### *Ambrose Ali University, Edo state*

2007 - 2012

B.Eng, Electrical and Electronics Engineering

Second Class (Upper Division 2:1)

### OTHER WORK EXPERIENCE

#### *Amazon Center, Edinburgh UK*

##### *Project Engineer*

Jan 2021 — Oct 2021

##### Responsibilities

- Successfully implemented a project development plan on distribution
- Developed performance goals and targets to meet customers demand and ensured accuracy and quality

### SKILLS

JavaScript  
React  
Redux  
Node.js  
Express.js  
GitHub  
Git  
MongoDB  
API Creation (Express)  
HTML  
CSS
